

10 STEPS TO APPRENTICESHIP

The NABH Education and Research Foundation recommends NABH develop the curriculum for and sponsor a Behavioral Health Technician registered apprenticeship program (RAP) with the U.S. Labor Department (DOL).

The Foundation proposes NABH identify two to three NABH system members to serve as pilot program members (PPM) in this effort. The PPM will hire apprentices – either existing or new employees – and pay them as full-salaried employees on Day 1. The steps below highlight the process for the NABH team and PPM from start to finish.
